

## Of Daring, Dizzying Designs

Bold. Creative. Unconventional. And deceptively playful. At Skaid Designs, each project echoes founder Kish Dusharla's larger-than-life aesthetic. Not one to shy away from experimenting with loud colours and dizzying designs, Dusharla's creations are infused with an incredible level of detail while being left open to interpretation. Layered with symbolism and subliminal messaging, Skaid's unique approach to design has won Dusharla ample praise from his clients.

## Shower Power

Your bathroom isn't just a place you flit in and out of for a quick shower. More often than not, it's a place that invites you to luxuriate in tranquility after a long day. And bathroom solutions brand Hansgrohe's latest Rainfinity shower range, boasting innovative functions and new jet types, is designed to indulge and immerse you in ultimate relaxation. Its unique spray surface, which curves slightly inwards, ensures that the water jet doesn't directly hit your head and shoulders from above, but instead envelops your body for a more indulgent experience.
