## Ball Pack Table

OBJECTRY

Crafted from a single piece of wood, the Ball Pack table by Objectry blurs the line between sculpture and functionality. It comes in different sizes to use individually or group together. [objectry.com](http://objectry.com)

## Cadence Table

STEM

The minimal form of Stem's Cadence side table is because it has been skillfully folded and welded from a thick sheet of brass. Perch it by your bedside and it'll feel like a piece of sculpture. [stemdesignco](http://stemdesignco)

## Edo Side Table

IQRUP &amp; RITZ

Inspired by the Japanese design principles of Kanso (simplicity), Shizen (nature) and Yugen (profound and subtle beauty), the Edo side table by Iqrup & Ritz is a beautifully naturalist addition to the bedroom. [iqrupandritz.com](http://iqrupandritz.com)
