

Bath beauty ...

Kaldewei recently launched its latest range of baths and washbasins, Meisterstück Incava, in collaboration with designer Anke Salomon. The freestanding bathtub features an interior with harmoniously flowing lines, an ultra narrow rim, and unique conical enamelled panelling. These design features lend the bath extraordinary lightness and panache. The contrast between the softly shaped interior and the geometrical exterior creates a new kind of elegance thanks to the delicate tension between straight and gently curving lines.

Patent design ...

Franke has come up with a new product, the Centinox sink, which is formed from highest grade stainless steel complete with three tiered accessories. This one-of-a-kind product balances functionality and design perfectly, and is supplied with a basket waste strainer. It is easy-to-clean and hygienic and its smooth, non-porous surface makes it difficult for bacteria and micro-organisms to survive. The stainless steel is highly resistant to rust, acids and chemical products. The product has been designed to protect it from scratches, abrasion and corrosive agents.
