Colour Blocked

If you are looking to add some colour to your home this season, the Alpaca range of Faux leather furnishings from RR Decor is just perfect. We love the neon range, it will instantly brighten up your space!

FORM AND FUNCTION

'In focus', a bespoke collection of furniture pieces by Magnolia in collaboration with Studio Wood, is the perfect amalgamation of form and function. 'In focus' is an expression of modern minimalism, detailed craftsmanship and a fitting mix of comfort and functionality.

Soft Landing

Confident and shimmering, the Moon Collection by Nya Nordiska is a real statement for enthusiasts of heavy drapery. The clever combination of wool and viscose is perfect for the season!

Gulmohar Lane has never failed to impress. It's no different this festive season. Distinctive, sophisticated, and incredibly comfortable, their latest range of handcrafted seating options are all this and more! We are sold!
