sense of nostalgia of a perfect afternoon siesta or a memory of the countless stories your grandmother spun while sitting on her throne. This series of 9 pieces is our modern take on the humble swing.

### What is your take on art and design?

The amazing thing about design is that it is multidisciplinary. Be it art, architecture, poetry, graphics or music - it all is a form of design, creativity and self-expression. I feel one can never differentiate between design and art as there's only a very

fine line that blurs them. A designer can never stop being an artist and an artist can never stop designing. In the end, everything in the world is designed!

### One trend that you follow quite often while designing any project?

At Studio Nishita Kamdar we design every project with an extremely passionate and innovative eye. We believe in the simplicity of design to create beautifully complex spaces which appeal to its social and physical context. We love to create spaces that are multi-functional, high on utility and sensitive to the requirements of the end user. Architecture should indeed not only look beautiful but also feel beautiful and appeal to the other senses of the human being. We love to use materials
